Available for university internship during 2027-1 period

PROFESSIONAL PROFILE

Software Development Technology student at Uniremington, with practical training in software development, test automation and testing of web, mobile and API applications. Academic and personal project experience using Java, JavaScript, TypeScript, SQL, Selenium, Playwright, Cypress, Appium, REST Assured and Karate. Knowledge of REST APIs, databases, Git, CI/CD, Docker, Scrum, Agile, BDD and TDD. ISTQB Certified Tester – Foundation Level. Seeking a 2027-1 university internship in software development, test automation or QA. English B1 – conversational, actively improving towards B2.

TECHNICAL SKILLS

Programming Languages:

Java, JavaScript, TypeScript, SQL

Software Development & Testing:

Software Testing, Test Automation, End-to-End Testing, API Testing, Mobile Testing, Unit Testing, BDD, TDD

Automation Frameworks:

Selenium, Playwright, Cypress, Appium, Cucumber, Serenity BDD

API Testing & Development:

REST Assured, Karate, Postman, REST APIs, CRUD, Schema Validation

Databases:

MySQL, SQL

CI/CD & DevOps:

Git, GitHub, GitHub Actions

Performance Testing:

JMeter, k6, Load Testing, Stress Testing, Spike Testing, Soak Testing

Project Management & Methodologies:

Scrum, Agile, Jira

PROJECTS

Playwright E2E Automation

Technologies: TypeScript, Playwright

- Built automated end-to-end tests for web applications.
- Integrated visual regression and accessibility testing.
- Used mobile device emulation for responsive testing.
- Designed and executed 30+ test cases.

Karate API Testing

Technologies: Java, Karate, JUnit 5

- Created API test suites using BDD practices.
- Tested multiple REST endpoints and CRUD operations.
- Performed negative testing and schema validation.
- Authored 25+ API test cases.

Cypress E2E Automation

Technologies: TypeScript, Cypress

- Engineered end-to-end test suites for web applications.
- Adopted Page Object Model and reusable custom commands.
- Used API interception for application testing.
- Delivered 20+ test cases.

Selenium Web Automation

Technologies: Java, Selenium, TestNG

- Designed web test suites using the Page Object Model.
- Configured WebDriverManager for browser automation.
- Integrated Allure Reports for test execution reporting.
- Completed 15+ test cases.

CI/CD Test Automation Pipeline

Technologies: GitHub Actions

- Orchestrated automated execution of unit, API, UI and performance tests.
- Built a multi-stage CI/CD pipeline.
- Embedded automated testing into the development workflow.

ADDITIONAL PROJECTS

REST Assured API Testing — Java, REST Assured, Cucumber

k6 Performance Testing — JavaScript, k6

Serenity BDD Catalog — Java, Serenity BDD

JMeter Performance Testing — JMeter

Appium Mobile Testing — Java, Appium

FlowersApp — Android / Mobile Development

Database Testing — MySQL, SQL

Docker Testing — Docker

HotelReact — Web Development / Testing

PROFESSIONAL EXPERIENCE

Full-time University Student

Universidad de Nariño & Uniremington | 2016 – 2023

- Completed Agronomist Engineering degree (2016 – 2021).
- Transitioned to Software Development Technology (2023 – Present).
- Built 14+ academic and personal projects in test automation, API testing and software development.

Agronomist Engineer — Uniflor

Rionegro, Antioquia | 08/2023 – 05/2026

- Planned and executed 10+ projects focused on process improvement and operational optimization, reducing downtime by approximately 15%.
- Analyzed production data across 5+ work fronts to support decision-making and project execution.
- Coordinated and followed up on activities with 3+ technical teams, ensuring on-time delivery of project milestones.
- Monitored progress and requirements for 5+ concurrent projects, reporting results to management on a weekly basis.
- Applied analytical and organizational skills to redesign 4+ internal workflows, improving process efficiency.

Administrative Assistant — Registraduría Nacional

Tumaco, Nariño | 08/2015 – 07/2016

- Managed and organized 500+ documents and citizen records, maintaining accurate filing and retrieval.
- Controlled and followed up on 50+ administrative processes per month, ensuring compliance with institutional deadlines.
- Maintained accurate records and information for 200+ cases, achieving high data reliability.
- Provided citizen service and administrative support to 30+ citizens daily, resolving inquiries and routing requests.

EDUCATION

Software Development Technology

Uniremington | 2023 – Present

Agronomist Engineering

Universidad de Nariño | 2016 – 2021

Administrative Assistant Technician

SENA | 2013 – 2015

CERTIFICATIONS

ISTQB Certified Tester – Foundation Level (CTFL)

Fundamentals of Software Testing

LANGUAGES

Spanish: Native

English: B1 – Intermediate (conversational, actively improving towards B2)

ADDITIONAL KNOWLEDGE

AI & Development Tools: AI/LLM Fundamentals, Prompt Engineering, RAG Concepts, AI APIs, Semantic Search, GitHub Copilot
